

Oncology Real World Solutions

June 2020

**IQVIA has developed custom
Real World Solutions
specifically for oncology**

**Our solutions are based from
an IQVIA community of over
1000 Canadian oncologists**

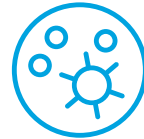

IQVIA COMMUNITY OF ONCOLOGISTS

Representative
distribution across
Canada

Clinical **stakeholder**
research

Variety of **tumor**
types

- MM
- NSCLC
- Colorectal
- ALL
- Breast
- Gastric
- Melanoma

Segmentation,
targeting and sales
by indication

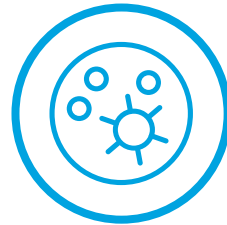

Provide **patient**
outcomes & patient
journeys from patient
charts

The Canadian Oncology Report Extract (CORE) provides a summary of administrative data holdings and a view to the Canadian cancer population

- **Summary information** from Canadian provincial administrative data on **incidence**, **prevalence**, **patient demographics**, **treatments**, and **outcomes**
- Customizable to the cancer(s) and cancer subtype(s) of interest

Burden of illness, natural history

Patient populations, treatment profiles

Indication algorithms

Health economic models, payer submission

We would be happy to set up a virtual meeting to discuss our full range of capabilities
