

IQVIA Health Data Catalog

The go-to global source to rapidly identify the most relevant datasets from the largest agnostic Real World Data catalog

Assessing the quality and relevance of Real World Data can be tedious and time consuming—but it doesn't have to be. IQVIA Health Data Catalog takes the headache out of identifying the right RWD sources. Thanks to the ability to rapidly search 2000+ unique global data assets with 200+ variables describing patient data, you can identify the most relevant data assets for your project faster than ever.

Filters		Country	Data Category	Dataset Name	1990 Date Range 2021	Total Number Of Patients	Last Edited Date	Completion Rate ↓

Why IQVIA Health Data Catalog accelerates time to insight

Broad

2000+ data assets

- The largest agnostic global Real World Data catalog
- **100+ countries** covered

Deep

200+ variables

- Powerful search and filtering capabilities
- Comprehensively explore and efficiently compare +200 variables to qualify assets with key metrics and related publications

Relevant

and up-to-date

- Single version of truth
- Be confident you're viewing the most up-to-date information uniquely maintained, governed, and orchestrated centrally

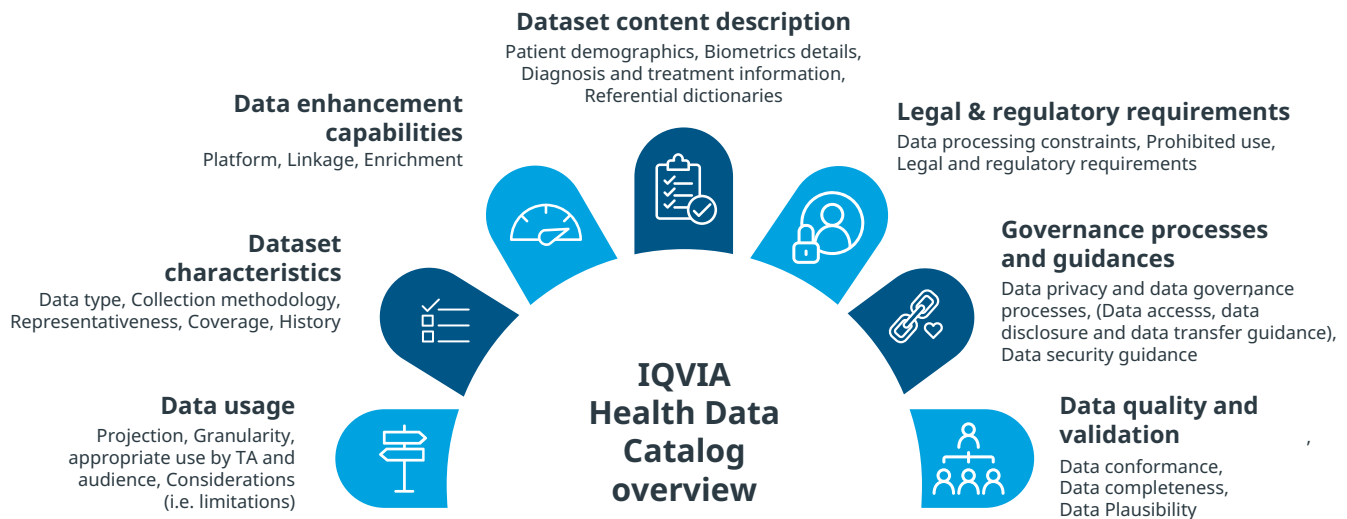

Time saving

10-fold time savings to identify assets

Actionable

Customize, export and share the results
